25X1

3. [REDACTED] ADMINISTRATIVE - DELIVERIES
In the absence of Mark Gitenstein, Senate Select Committee on Intelligence staff, delivered to Martha Tally, also of the Select Committee, a copy of the Attorney General's letter to the DDCI of 19 October 1976 regarding guidelines for certain CIA activities.

25X1

4. [REDACTED] LIAISON Tom Moore, Senate Select Committee on Intelligence staff, asked me what the Agency knew about [REDACTED] He had seen some reference to this codeword in some Army documents and was seeking additional information.

25X1

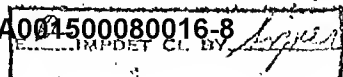

25X1

5. [REDACTED] HEARINGS Met with Dan Childs, Senate Select Committee on Intelligence staff, and discussed the Committee's upcoming budget authorization hearings. Childs provided me a list of tentative dates for the hearing. Of particular relevance are the 23 February NFIP overview, the 3 March scheduled session on the Intelligence Community Staff budget, and the 22 and 23 March hearings on the CIA budget. We also discussed Childs' request for briefing on a recent Reserve release. Childs said he wanted to speak to Bill Miller, Staff Director of the Committee, again about it before any additional plans were made. I suggested that he speak to Mr. Cary at the Senate Select Committee on Intelligence briefing that afternoon, after he had talked with Miller.

5. (Unclassified - PLC) RETIREMENT Called Bob Hull, State Department, and inquired as to what section of the Foreign Service Retirement Law allows reemployed Foreign Service annuitants to be eligible for Civil Service retirement benefits. Hull said there is no specific provision in their law which grants this benefit. However, the Civil Service Commission does grant reemployed Foreign Service annuitants additional retirement benefits under Civil Service retirement if the individual works more than five years under that program. Also, the Commission grants full credit for the period of Foreign Service employment for a total recomputation for Civil Service retirement. Hull added that Section 872 of their Act is the only pertinent section concerning reemployed annuitants. That section requires that a Foreign Service annuity be reduced correspondingly to the reemployed salary. If the salary exceeds the annuity, the annuity payments are suspended. I called Hull in connection with the inquiry from [redacted] a CIARDS retiree who now is a staff member of the House Government Operations Committee and receives no additional retirement benefits nor is he eligible for Social Security. This matter is now under review by [redacted] Deputy Director of Personnel. I called [redacted] and informed him of my conversation with Mr. Hull and that the matter is still under review.

6. (Unclassified - GLC) LIAISON Talked with Bill Miller, Staff Director, Senate Select Committee on Intelligence, following our aborted meeting with the Subcommittee on Budget Authorization, Senate Select Committee on Intelligence, this morning about the guidelines for contacts with the Congress which had been approved by Mr. Bush prior to his departure as DCI and reporting requirements under the Case Act. (See Memorandum for the Record.)

7. (Unclassified - LLM) LIAISON Met with Senator Robert Morgan (D., N. Car.) in his office, along with Walt Ricks, Senate Select Committee on Intelligence staff, to close out two follow-up items from our trip [redacted]
